OBJECTIVE

A detail-oriented and dedicated backend developer with 1 year of hands-on experience. Seeking a challenging role where I can leverage my skills to contribute to organizational growth. Looking forward to adapt to new environments, continuously learn, and collaborate effectively with team members.

WORK EXPERIENCE

PHP Developer | SoftPulse Infotech   **August 2024 – Present**

- Worked on existing projects by resolving client-reported issues and implementing new features/modules.
- Developed and maintained a Shopify-based app related to return order management:
    - Independently handled the entire backend of the application.
    - Designed and implemented secure REST APIs for frontend.
    - Managed entire MySQL database schema and queries.
    - Developed admin features for return create, approvals, rejection and return order tracking
    - Integrated several logistics services for return pickups, label generation, and tracking.
    - Used GraphQL to fetch dynamic shop data and stay updated with Shopify updates
    - Created and managed Shopify webhooks for order/return event handling
    - Implemented Shopify App Proxy to allow customers to create returns securely from the storefront
    - Focused on backend scalability, performance optimization, and secure API handling

Web Development Intern | SoftPulse Infotech   **February 2024 – August 2024**

- Gained hands-on experience with HTML, CSS, JavaScript, jQuery, PHP, CodeIgniter, and Shopify basics.
- Completed a series of project simulations and dummy tasks under the guidance of senior developers
- Acquired foundational understanding of backend structure and API development for Shopify-based systems

TECHNICAL EXPERIENCE

Languages & Libraries: HTML5, CSS3, JavaScript, jQuery, AJAX
Backend: PHP, CodeIgniter
eCommerce: Shopify (REST API, GraphQL), Webhooks, App proxy
Database: MySQL
Developer Tools: Postman, VS Code, Sublime Text, XAMPP
